# SUGARFOOT

For over 10 years **sugarfoot** have been bringing a taste of Nashville to the English Lake District and beyond through their rich blend of country covers and original music. Sugarfoot are proud to be part of the country music explosion that's happening in the UK right now - what was once a cliché of Stetsons and cowboys is now a genre of musicianship and authentic storytelling, accessed by millions of UK fans....an audience that's still growing.

Having released their first, self produced album of original material back in 2010, featuring the vocals of cousins Katie and Carly McGuire, Sugarfoot have recently returned to the studio - capturing their unique take on country favourites alongside brand new original tracks - a collection of recordings that represent what Sarah and Ailsa (*vocals*), Leanne (*drums & percussion*), Paul (*bass*) and Graeme (*keys & guitar*) have loved to play most for their Sugarfoot audiences over a decade together.

Expect covers from the likes of; Alison Krauss, Mary Chapin Carpenter, The Shires, Dolly Parton, Patsy Cline, Gretchen Peters, Dixie Chicks, Lady Antebellum, Carrie Underwood, Emmylou Harris and more.....
